First Republic’s client satisfaction exceeds that of other leading service brands and is substantially higher than the U.S. Banking Industry.

- Exceptional service is our key organic growth driver: word-of-mouth referrals from very satisfied clients.
- NPS measures client loyalty and likelihood to actively “refer”.
- Referrals lead to strong growth and very low deposit attrition rates.
- First Republic’s service has become even more differentiated during the pandemic.

Consistency – Low Banker Turnover

Banker stability = client stability and strong credit

Fully **90%** of all loans, since our founding in 1985, originated by bankers still with First Republic

- Stability of people is integral to high-touch, consistent relationship banking model
- Culture results in higher workforce retention rate, key to client service excellence
- Credit quality is a cultural cornerstone, reinforced with a credit clawback provision and weekly, all-company loan meetings since 1986
- Directors Loan Committee chaired by the Bank’s Founder and Executive Chairman

Since 1985, $439 billion\(^{(1),(2)}\) in loans originated, with only 8 bps **cumulative** total net losses \(^{(3)}\)

---

(1) As of September 30, 2022.
(2) Excluding PPP loans.

By Source 9/30/22

By Type 9/30/22

Perspective on Operational Size

First Republic has only approximately 1/5th the number of deposit accounts compared to the average $100–250 billion U.S. bank: (1), (2)

- Greater ability to provide extraordinary service per relationship
- Greater ability for oversight per relationship

(1) $100B-250B Total Assets U.S. Bank group is based on top-tier bank holding companies, commercial and savings banks, ranked by total assets as of September 30, 2022. FRC and U.S. subsidiaries of foreign banks are excluded. Broker-dealers, regulated depositories and specialty lenders are also excluded based on differences in their business models. Data is sourced from S&P Global Market Intelligence.

(2) As of September 30, 2022, the average size of FRC deposit offices was over $721 million per office.
Business Banking

Largely a direct result of personal banking clients recommending us for their businesses and nonprofit organizations

As of 9/30/22

• Average business loan = $5.7 million
  • 6.1 to 1 business deposits / loans outstanding
• Average business deposit account = $495,000
• Average rate paid on business deposits = 37 bps

+21% CAGR (1)

(1) 5.75-year CAGR from December 31, 2016 through September 30, 2022.
Strong asset growth leads to consistent net interest income growth through a variety of rate environments.

(1) 5-year CAGR from full year 2016 through full year 2021.
Stable net interest margin in a variety of interest rate environments drives consistent net interest income growth of 19% (1)

Net Interest Margin (NIM) (2)

Core NIM Reported (2007–2016) (3)

(1) 19-year CAGR from full year 2002 through full year 2021.
(2) Beginning in 2018, reflects the new reduced federal tax rate of 21% following the enactment of tax reform legislation in December 2017. This includes the impact on tax-efficient investments. This has no effect on net interest income.
(3) For 2007 through 2016, the net interest margin is presented on a non-GAAP basis (“core net interest margin”) to exclude the effects of purchase accounting and other one time items. For a reconciliation of the core net interest margin to its equivalent ratio under GAAP for these periods, see "Management’s Discussion and Analysis of Financial Condition and Results of Operations — Use of Non-GAAP Financial Measures" in the Bank’s Annual Reports on Form 10-K for the years ended December 31, 2010 through December 31, 2016 and in the Bank’s Registration Statement on Form 10, as amended.
(4) Net interest margin is annualized.
Strong Growth in Revenues

Revenues ($ in Millions)

(1) 5-year CAGR from full year 2016 through full year 2021.
Efficiency ratio encompasses significant investments in:

- Our differentiated, high-touch service model
- Technology and operations to scale our differentiated service level and provide a strong foundation for the future
- A growing overall franchise and wealth management business
- Acquiring the next generation of clients to power long-term growth

(1) The provision for unfunded loan commitments is included in the provision for credit losses beginning in 2020. For prior periods, the provision for unfunded loan commitments is included in other noninterest expense.

Note: Efficiency ratio is calculated by dividing noninterest expense by the sum of net interest income and noninterest income.
Tangible Book Value per Share

(1) Tangible book value per share is considered a non-GAAP financial measure. Refer to the Forward-Looking Statements and Non-GAAP Financial Information slide for a discussion of non-GAAP financial measures and slide 41 in Appendix for a reconciliation of this non-GAAP financial measure to the most comparable GAAP measure.
(2) 5.75-year CAGR from December 31, 2016 through September 30, 2022.

Forward-Looking Statements and Non-GAAP Financial Information

This presentation may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Statements in this presentation that are not historical facts are hereby identified as “forward-looking statements” for the purpose of the safe harbor provided by Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Any statements about our expectations, beliefs, plans, projections, events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as “anticipates,” “believes,” “can,” “could,” “may,” “predicts,” “potential,” “should,” “will,” “estimates,” “plans,” “projects,” “continuing,” “ongoing,” “expects,” “intends” and similar words or phrases and include statements about economic performance in our markets and growth in our loan originations and wealth management assets. Accordingly, these statements are only predictions and involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual results to differ materially from those expressed in them.

Forward-looking statements involving such risks and uncertainties include, but are not limited to, statements regarding: projections of loans, assets, deposits, liabilities, revenues, expenses, non-interest income, net income, net interest margin, capital expenditures, liquidity, dividends, capital structure, investments or other financial items; forecasts of future economic conditions generally and in our market areas in particular, including expectations relating to interest rates and inflation, which may affect the ability of borrowers to repay their loans and the value of real property or other property held as collateral for such loans; expectations regarding the banking and wealth management industries; descriptions of plans or objectives of management for future operations, products, services or technologies; projections of future financial performance (including opening new offices); expectations about the performance of any new offices; projections about the amount and the value of intangible assets; future provisions for credit losses on loans and debt securities, as well as for unfunded loan commitments; changes in nonperforming assets; expectations regarding the impact and duration of the COVID-19 pandemic (collectively referred to as “COVID-19” herein); expectations regarding our executive transitions; projections about future levels of loan originations or loan repayments; projections regarding costs, including the impact on our efficiency ratio; and descriptions of assumptions underlying or relating to any of the foregoing.

Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to: economic and market conditions, including volatility in the financial and securities markets, which may negatively impact the valuation of our investment securities portfolio, credit losses on our loans and debt securities and the performance of our wealth management business; inflation; interest rate risk and credit risk; significant competition to attract and retain banking and wealth management customers, from both traditional and non-traditional financial services and technology companies; our ability to recruit and retain key managers, employees and board members; natural or other disasters, including earthquakes, wildfires, pandemics or acts of terrorism affecting the markets in which we operate; the adverse effects of climate change and the costs of compliance with the regulations that implement the Paris Agreement, which may have an adverse effect on our business, financial position and results of operations; our ability to maintain and follow high underwriting standards; real estate prices generally and in our markets; our geographic and product concentrations; demand for our products and services; developments and uncertainty related to the future use and availability of some reference rates; the regulatory environment in which we operate, our regulatory compliance and future regulatory requirements, which may result in costs, fees, penalties, business restrictions, reputational harm or other adverse consequences; any changes to liquidity and regulatory capital requirements applicable to us, including more stringent liquidity requirements and heightened capital requirements applicable if we become a Tier 1 banking organization under the FDIC’s regulations by reporting $250 billion or more in total consolidated assets or $75 billion or more in weighted short-term wholesale funding, nonbank assets or off-balance sheet exposure, based on a four quarter trailing average; legislative and regulatory actions affecting us and the financial services industry, such as the Dodd-Frank Act, changes in compliance costs, increases in the cost of regulatory capital requirements and new regulatory capital requirements; limitations on activities and requirements to hold additional capital, as well as changes to the Dodd-Frank Act pursuant to the Economic Growth, Regulatory Relief, and Consumer Protection Act; changes in federal, state or local tax laws; our ability to avoid litigation and its associated costs and liabilities; future Federal Deposit Insurance Corporation (“FDIC”) special assessments or changes to regular assessments; fraud, cybersecurity and privacy risks; and custom technology preferences of our customers and our ability to successfully execute on initiatives relating to enhancements of our technology infrastructure, including client-facing systems and applications.

For a discussion of these and other risks and uncertainties, see First Republic’s SEC filings, including, but not limited to, the risk factors in First Republic’s Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and any subsequent reports filed by First Republic with the FDIC. These filings are available in the Investor Relations section of our website. All forward-looking statements are necessarily only estimates of future results, and there can be no assurance that actual results will not differ materially from expectations, and, therefore, you are cautioned not to place undue reliance on such statements. Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout our public filings under the Exchange Act. Further, any forward-looking statement made by us or any person on our behalf as of the date of this presentation may not be an obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events.

This presentation includes certain non-GAAP financial measures used by the Bank, including core return on average tangible common shareholders’ equity, core return on average tangible common shareholders’ equity, core return on average tangible common shareholders’ equity and core net income available to common shareholders are non-GAAP measures that exclude the effects of purchase accounting and other one-time items, and these measures were used in the periods from the divestiture from Bank of America on July 1, 2010 through 2016. For additional information on return on average tangible common shareholders’ equity and core return on average tangible common shareholders’ equity, see slides 33 and 42. For a reconciliation of these non-GAAP financial measures (other than historical core net interest margin) to the most comparable GAAP measures, see slides 41 and 42 in Appendix. We believe that these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information that is not otherwise required by GAAP or other applicable requirements. These non-GAAP financial measures should be considered in addition to, not as a substitute for, financial measures prepared in accordance with GAAP.

Driven By: Core Values

Do the Right Thing
We strive to do things right at First Republic. We also recognize that we’re a business of humans; mistakes will happen. Therefore, our mandate is to do the right thing: act with integrity, own our actions, correct mistakes, learn from experience.

Respect the Team
Everyone at First Republic makes a difference and deserves to feel that their contribution is valued. We place the highest importance on collaboration because we know that the power of many is greater than the power of one.

Think Positively
We operate in an environment of trust and encourage openness and flexibility. We hire positive people who are forward-thinking. Our goal is to “manage toward yes.”

Grow
We’ve evolved greatly since our inception, expanding ourselves and our business purpose. At First Republic, we embrace change and every person has the opportunity to grow and contribute. We want our people to soar.

Provide Extraordinary Service
We always aim to exceed expectations and serve our clients in unexpected ways. We’ll take on only what we can do right. Our business may be about wealth management and banking, but our success is all about service — exceptional client service.

Move Forward, Move Fast
There are two types of organizations: those that spend time deliberating and those that spend time doing. We’re doers. We value action and decisiveness and recognize that the best opportunities come to those who act quickly.

Take Responsibility
At First Republic, it’s not enough to do our own jobs well. Making sure our clients are satisfied is everyone’s job. So if something needs fixing, we step up to the plate, “own” the problem and make things right.

Have Fun
We know that if colleagues enjoy their work, they’ll do a better job — and our clients will feel the difference. It’s really that simple.
Empowered Colleagues

Our comprehensive benefits and enriching growth opportunities enable colleagues to be their best when serving clients and our communities.

We provide development opportunities to promote growth, in keeping with our culture and values.

(1) We intend to measure, report and fully offset Scope 1 and Scope 2 emissions henceforth. We reached carbon neutrality across our projected Scope 1 and Scope 2 emissions for the full-year 2021 by reducing emissions from purchased electricity through green power agreements and on-site solar at a number of our facilities, while also purchasing unbundled renewable energy credits (RECs) and carbon offsets.
(2) Projected full-year 2021 CO2e emissions and electricity needs were based on available 2021 company data as well as historical company data from 2018 to 2020. Final CO2e emissions and electricity consumption will be made available following an independent assurance.
(3) We intend to purchase renewable energy to cover 100% of the Bank’s electricity needs. We purchased 100% renewable energy for our projected full-year 2021 electricity needs through green power agreements and unbundled RECs.
